DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-4 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 1 is directed to descriptive material per se because it is not capable of causing functional change in a computer. The control software is not recorded on a computer readable medium and executed by a computer to permit the function of the descriptive material to be realized.

Allowable Subject Matter

3. Claims 5-22 are allowed.
